Esempi / *Examples*

In molte situazioni "Pratiko" diventa un sistema strutturale.
Con l'ausilio delle staffe reggimensole e del piede boomerang può infatti reggere un piano di lavoro.

*Pratiko can be well used as a complete structure.
By the help of the boomerang leg and shelf brackets it can even support a desktop.*

1

Soluzione con piede boomerang e staffe: per una assoluta libertà di movimento

Solution with boomerang leg and brackets for a total freedom of movement

2

Soluzione con piede singolo e staffe: per stabilità e sostegno perfetti

Solution with single leg and brackets for perfect stability and support
